ABOUT THE PROGRAM

Masonry & Codes: How They Work Together

*The seminar will be presented by Bryan
Light of the Brick Industry Association*

EARN 2 AIA LEARNING CREDITS!

CODE OFFICIALS WILL ALSO EARN
2 HOURS LEARNING CREDITS.

This class will cover the basics of ASTM specifications C216 & C652, clay masonry characteristics, drainage systems, building codes for veneers, the aesthetic details of masonry, and cleaning brick veneer. After this class, you will have a better understanding of best masonry practices and related building codes.

MASONRY INSTITUTE OF TENNESSEE
2827 Azalea Place
P.O. Box 41654
Nashville, TN 37204

ABOUT THE SPEAKER

Bryan Light has been in the masonry industry since 1964. He became a master mason in 1970, and a mason contractor in 1974, with experience in both residential and commercial brick construction. He joined SBI in 1999 as the director of technical services. In regards to brick marketing, he is a regular guest on a variety of television shows. In the area of codes and standards he is a Gold member of the Building Officials of Georgia, and a member of the Metro Atlanta Inspectors Association. As to masonry training, Bryan is the chairman of the National SkillsUSA Technical Committee, and runs their contest for secondary and post secondary masonry students held annually. He sits on the Masonry Association of Georgia Apprenticeship Committee, and is on the Board of Directors of the Mississippi Construction Education Foundation and the Construction Education Association of Alabama. He regularly donates his skills and time to do non-profit work on industry-related projects.
