**CMU is more than
just gray block!**

Lunch included with all seminars

Spring Fling

in Color

*This seminar covers the diversity of CMUs.
It can be more than just gray block.*

Trenwyth Industries, Inc. has specialized in the manufacturing of high end architectural concrete masonry units since 1967. Trenwyth remains at the forefront of the prefaced and prefinished concrete masonry units. They are cost effective and classy, an excellent material for all masonry projects. Trenwyth's products are applicable for both exterior and interior finishes. These products include:

- ASTRA-GLAZE-SW+ glazed masonry units
- TRENDSTONE ground face units
- TRENDSTONE PLUS filled and polished units
- MESASTONE textured masonry units
- ACOUSTA-WAL sound-absorbing units

The Astra-Glaze glazed masonry units (CMU) are a safe, clean alternative to structural glazed facing tile (SGFT) and ceramic tile.

This HSW program addresses sustainable design as well as the LEED points that may be achieved using glazed CMU.

Architects will understand why concrete masonry units have a high impact on their safety objectives. In addition, this program enables architects to effectively understand why glazed CMU is the healthy choice in terms of how it impacts both building inhabitants and the environment.

EARN HSW 1 HOUR

John Ciccirelli has been with Oldcastle Architectural Products for 12 years, and is now the National Sales Manager for the Trenwyth Product Division. He has 15 years of experience in both the manufacturing and sales of architectural masonry. John received his Bachelor's Degree in Marketing and Business Administration from Illinois State University.

THIS HSW PROGRAM ADDRESSES SUSTAINABLE DESIGN AS WELL AS THE LEED POINTS THAT MAY BE ACHIEVED USING GLAZED CMU.
